5.1.3 ICT/Computing Skills

Response:

As the Information and Communications Technology (ICT) can impact student learning when teachers are digitally aware and understand how to integrate it into curriculum. Along with traditional teaching and learning process, our institute is substantially using ICT based e-learning systems - content and learning management tool like Vmedulife for effective teaching learning process. Therefore, teachers of our institute can easily do academic planning and can conduct test, assignments and grade them. The academic planning was done based on outcome based education system; the all subjects are linked with PO's and CO's. The students can solve the test and assignment through browser and vmedulife app, so as its make them very convenient to appear for internal exams. As our institution has subscription for the e-resources like e-journals, e-Shodhsindhu membership, e-books and remote access to e-resources, as study resources are available online; students can access to them at their own time. As our institute is premium member of DELNET, students are able to asses online e-books, e-journals of science and life sciences, near about5000e-journals full text can be assessed and1000of thesis can be viewed by the students.

All the faculty members have been trained by conducting FDP programme based on modern pedagogy tools, by DTE, Mumbai. Later on training the faculty members have practised for use of ICT based teaching-learning process. To keep the teachers update with the modern tools and various usage of ICT ineffective teaching and learning, faculty members are permitted for training programmers organized by AICTE, MSBTE and DTE through online or offline mode. The most of the staff has successfully completed the ICT based training through SWAYAM and NPTEL platform. In the process of perpetual modernization of the teaching learning process, the institute has installed LCD projector, LAN and audio system in all the class-rooms, computer lab, and pharmacology laboratory. All the staff members have been trained to utilize this facility in their routine class.

The entire teaching faculty members have the separate seating arrangement, and we have provided latest version computers, laptops, headphones, HD web-camera and internet. By using these resources, all faculty members conduct their lectures and practicals through online mode during in this pandemic situation. The most of the staff has developed online educational resources such as you tube videos and ppt on slide share which is viewed by the students. Faculty members are encouraged to develop scientific videos and PPT to upload them in social media. These contents are also accessible to the other institutional students and faculty members.

The screenshot shows the e-ShodhSindhu website interface. At the top, there is a navigation bar with links for Home, About, Members, E-Resources, Search, INFED, and Shodh Shuddhi. A search bar is present with the text "Search-an-article". Below the navigation bar, a large banner reads "Welcome to e-ShodhSindhu: Consortium for Higher Education Electronic Resources". It states that the consortium provides access to e-resources for universities, colleges, and centrally funded technical institutions in India. It is an initiative by the Ministry of Education, Govt of India, and is being executed by INFLIBNET Centre. There are two buttons: "Read More" and "Online e-Resources Requisition System". To the right, there is a section titled "Off-Campus (Remote) access to online resources" with a "More Details" button and an image of a library. At the bottom of the banner, there are statistics: 98 CFTIs, 217 Universities, 3600+ Colleges, 10000+ e-Journals, 199500+ e-Books, 600000 e-Books through NDL, and 21 Resources. A small notification for "Activate Windows" is visible in the bottom right corner of the screenshot.

Lecture-3 :Sympathetic Nervous System

Sympathetic Nervous System

- Sympathetic Preganglionic Neurons
- Sympathetic Ganglia
- Postganglionic Sympathetic Neurons
- Distribution of Sympathetic neurons
- Effect of Sympathetic stimulation

Organization: Sympathetic NS

Sympathetic Nervous System

- Also called **Thoracolumbar** system
- All preganglionic sympathetic fibers
 - Arises from lateral horn of spinal cord
 - Leave the spinal cord with the ventral roots of the spinal nerve
 - Cell body located in gray matter from T1-L2
- Sympathetic trunk extend the entire length of spinal cord
- Post ganglionic fibers pass to effector organ

Sympathetic Nervous System

All preganglionic sympathetic fibers-

- Arises from lateral horn of spinal cord
- Leave the spinal cord with the ventral roots of the spinal nerve
- Cell body located in gray matter from T1-L2

Sympathetic Nervous System

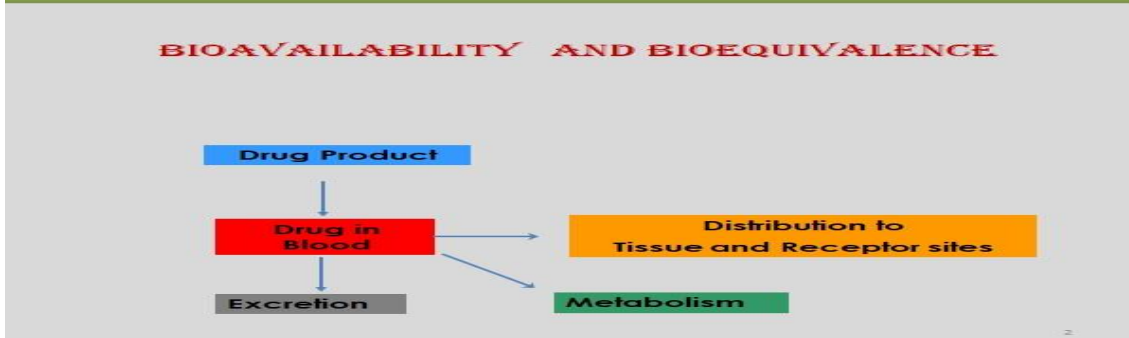

All preganglionic sympathetic fibers are:

- Short
- Myelinated
- Type B fiber
- Leave the spinal cord via ventral root
- Pass via the white rami communicates the paravertebral ganglia
- Terminates in sympathetic ganglia
- Synapses with postganglionic neurons
